Introduction

The Prinz spare parts list has been produced for Prinz registered dealers and Prinz registered workshops, primarily to serve as a guide to the order numbers and accurate description of the various parts.

The list includes, first an order number list which shows on which page the part is listed. All parts have been arranged in numerically ascending order; first the parts with a 3 figure initial number which has in fact been disregarded, then follow the parts which the initial numbers 11, 16, 24 und 26, then the parts specially designed for the Prinz with the initial number 40 and finally, the standard parts in accordance with the DIN (German Industrial Standard) designation, and measurements.

The list includes the names and order numbers together with an illustration of Prinz standard spare parts and trade spares. These parts have been arranged alphabetically according to the components parts of the vehicle; further information is given in the "Contents" list. On the separate sheets, alongside the description of the part, will be found the order number, then the usual number (of parts) included, next remarks on the manufacture of the parts and finally the number of the illustration.

One or more vertical arrows printed in front of the order number indicates units, a break in the arrow indicates parts not included. A short horizontal arrow in the "Remarks" column in front of the vehicle number indicates that the part is available up to that number, an arrow after the vehicle number indicates its availability as from that number.

All sheet metal parts are supplied fully coated. The lacquer work is our standard artificial serin lacquer, air dried.

When ordering the lacquer paintwork please add to your chosen colour description one of the colour symbols given hereunder, e.g.

Sahara beige	-	101
Indigo blue	-	301
Hedera green	-	401
Lava grey	-	501
Carara grey	-	502
Calla white	-	503
Black	-	599

Changes made in their spare parts will be announced by the Works through the spare parts part sales service. Alterations should be entered immediately in the spare parts list which should be kept up to date.

Spare part orders should be sent to the appropriate wholesale dealer on the order form depicted overleaf. Orders addressed in any other way will be re-directed to the above mentioned dealer for execution. To obviate errors, or delays in delivery, or unnecessary queries, every spare parts order should contain the following information:-

1. Full address and date of order.
2. Method of delivery and if necessary destination Rly. station.
3. Clear description of part ordered.
4. Complete order number (including symbol, where required).
5. Number of parts required.
6. When ordering for particular vehicle, give chassis and motor number.
7. Signature of person ordering.

Payment C.O.D. or advance cash payment.

Complaints must be lodged with the appropriate wholesale dealer, within 8 days of receipt of goods.

Replacements from a subsequently published list will be delivered by the appropriate wholesale dealer.

Delivery of spare parts will be made by the appropriate wholesale dealer.

Spare parts order
